

RESIDENTIAL EXTENDED WARRANTY

We offer multiple warranty kits that enable licensed plumbing contractors to extend the limited warranty of the tank and parts on eligible water heaters. The kits listed below extend the warranty on certain ProLine 6-year models to 8 or 10 years, and the warranty on 8-year ProLine Master models to 12 years.

Extended Warranty Kits must be installed within 30 days of the water heater installation date. The below tables show the eligible models for specific extended warranty kits.
