

NOTE: Components shown in images are representative only and may vary based on the configuration ordered.

#### **CAUTION! — READ THIS FIRST — IMPORTANT SAFETY INSTRUCTIONS**

#### WARNING

- To reduce the risk of death, personal injury or property damage from fire, electric shock, falling parts, cuts/abrasions, and other hazards read all warnings and instructions included with and on the fixture box and all fixture labels.
- · Before installing, servicing, or performing routine maintenance upon this equipment, follow these general precautions.
- · Commercial installation, service and maintenance of luminaires should be performed by a qualified licensed electrician.
- For the installation: If you are unsure about the installation or maintenance of the luminaires, consult a qualified licensed electrician and check your local electrical code.
- To prevent wiring damage or abrasion, do not expose wiring to edges of sheet metal or other sharp objects.
- Do not make or alter any open holes in an enclosure of wiring or electrical components during kit installation.

#### WARNING

- · Do not make or alter any open holes in an enclosure of wiring or electrical components during kit installation.
- Turn off electrical power at fuse or circuit breaker box before wiring fixture to the power supply.
- Turn off the power when you perform any maintenance.
- Verify that supply voltage is correct by comparing it with the luminaire label information.
- All wiring connections should be capped with UL approved wire connectors.

#### **CAUTION**

- Avoid direct eye exposure to the light source while it is on.
- · Account for small parts and destroy packing material, as these may be hazardous to children.
- Risk of burn. Disconnect power and allow fixture to cool before changing handing fixture.

NOTICE: Green ground screw provided in proper location. Do not relocate.

NOTICE: Minimum 90° supply conductors.

NOTICE: Specifications and dimensions subject to change without notice.

NOTICE: Suitable for Dry or Damp location.

# 

# SURFACE MOUNT INSTALLATION

### STEP

Remove product from packaging.

## STEP 2

Remove lens.

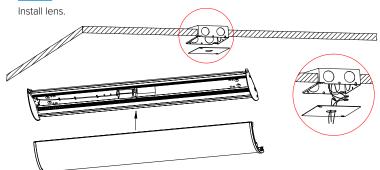

## STEP 3

For mounting, use the provided mounting holes on each end of the fixture housing. Mount per required application. Appropriate hardware should be used (supplied by others).

# STEP 4

Make electrical connections according to code.

# STEP 5

# LENS INSTALLATION

### STEP 1

Mount plastic trims to the lens.

### STEP 2

Install the lens by hanging from end plate pins of the luminaire and rotate into position. Flex the lens to engage end plate pins on opposite side of the luminaire.

# **SWITCHABLE LUMEN & CCT OUTPUT**

Set lumen and watt output to desired level using switches on side of driver.
