

3000 Series

Pass & Seymour® Industrial Portable Outlet Boxes deliver a safe power solution for the toughest environments.

Industrial Grade Portable Outlet Boxes provide safe, temporary power throughout industrial manufacturing, entertainment and film making, construction jobsites, food and beverage facilities as well as building maintenance. Available in yellow and black, with both clamp and cord grip options and a variety of cover types, Pass & Seymour Industrial Grade Portable Outlet Boxes deliver a solution that meets your needs.

FEATURES & BENEFITS

Available in both clamp and cord grip styles, covering a wide range of cable diameters.

Available in both pendant and feed through types.

Molded of thermoplastic elastomer (TPE), these non-conductive boxes are crushproof, and resistant to jobsite abuse and electrical shock.

A wide array of cover options are available.

Heavy-duty stainless steel spring-loaded fliplids provide NEMA Type 3R protection.
