

# YOU DIDN'T PLAN FOR THIS. BUT WE DID.

For decades, American Standard<sup>®</sup> Heating & Air Conditioning has earned a reputation for high-end, reliable engineering in heating and cooling equipment. While we pride ourselves on that, we understand that not every homeowner needs all the bells and whistles.

With the American Standard<sup>®</sup> brand behind it, Ameristar<sup>®</sup> is exactly what you and your family need: **an HVAC product that's built to last and priced to fit your budget.** Ameristar gives you heating and cooling performance you can rely on and the control to live your life comfortably.

**SETTING THE STANDARD FOR AFFORDABLE EQUIPMENT.**

**AIR CONDITIONERS****AIR CONDITIONERS**

When high temperatures are breaking records, Ameristar® performs like a champ. Our air conditioners are equipped with quality components and are available in a range of cooling capacities, suitable for any size home. You won't break the budget, and you can be confident that your friends and family will be cool, comfortable and dry even on the hottest, stickiest days.

**HEAT PUMPS****HEAT PUMPS**

In more mild climates, our durable and efficient Ameristar® heat pumps offer an affordable solution to keep your home comfortable year-round.

**FURNACES****FURNACES**

When winter puts a chill in the air, Ameristar® furnaces really turn on the heat, warming your entire home. You can rest assured you won't find this level of quality construction, reliability and efficiency at the same price point anywhere else.

**AIR HANDLERS****AIR HANDLERS**

No matter the type of home, our Ameristar® air handlers are engineered to accomplish the task quietly, efficiently, and affordably.

**COILS****INDOOR COILS**

Our all-aluminum Ameristar® indoor coils stand up to year-round use. While low-cost, our multi-position coils are engineered to excel with long-term performance and efficiency. This lasting durability means your home will be comfortable now and for years to come.

**PACKAGED UNITS****PACKAGED UNITS**

Ameristar® packaged units save on space by housing the heating and cooling equipment within a single outdoor cabinet. Installation is a snap for new construction as well as replacements, and they're also suitable for use in manufactured homes.

**DUCTLESS****DUCTLESS SYSTEMS**

Quiet and efficient, ductless systems eliminate the need to run expensive ductwork. They're an economical way to heat or cool bonus rooms, sun rooms, garages, and add-on living spaces—or to fix hot and cold spots in your home. Energy rebates available for select units.
