

Breathe Easier with Glasfloss – America’s Trusted Air Filtration Manufacturer Since 1936

Wolff Bros. Supply proudly carries the full line of **Glasfloss Z-Line Pleated Filters**, engineered for superior indoor air quality, dependable performance, and unmatched product consistency. Glasfloss is the **oldest American-owned and operated HVAC filter manufacturer**, with five strategically located U.S. plants that support **industry-leading on-time delivery and exceptionally reliable supply**.

**Why Choose Glasfloss Z-Line Pleated Filters?** These pleated filters deliver a combination of performance, durability, and value that homeowners and professionals can trust:

- ✓ **Full Line of Sizes & Thicknesses**  
Available in 1”, 2”, 4”, and 6” depths - including standard and special sizes - for virtually any residential or commercial application
- ✓ **Consistent Quality You Can Depend On**  
Every filter is manufactured with precision-formed pleats, rigid frame construction, and tightly controlled media standards to ensure the same performance every shipment, every box
- ✓ **Industry-Leading On-Time Delivery**  
With multiple U.S. factories, Glasfloss maintains exceptional order fill rates and product availability - giving you the reliability your business needs
- ✓ **High MERV Options for Cleaner, Healthier Air**  
From MERV 8 to MERV 13+, Glasfloss filters help reduce airborne dust, allergens, and pollutants for improved indoor air quality
- ✓ **Low Pressure Drop Across the Entire Line**  
Engineered to maintain airflow, reduce system strain, and support more efficient HVAC operation
- ✓ **Moisture-Resistant Construction**  
Ensures durability, longer service life, and stable performance in a wide variety of environments
- ✓ **U.L. Classified**  
Independently evaluated for safety and performance
- ✓ **Proudly Made in the U.S.A.**  
Manufacturing locations: **Desoto, TX • Jacksonville, FL • Juneau, WI • Lancaster, OH • Reno, NV**

Z-Line Pleated Filter Series Overview:

- ZL Series (1”, 2”, 4”)**
  - MERV 10 performance
  - Low pressure drop for improved energy efficiency
  - Available in a wide range of standard & special sizes
  - ZL4 includes durable media separators
- HV Series (1”, 2”, 4”, 6”)**
  - MERV 10 performance
  - Designed for higher-velocity systems
  - Low pressure drop
  - 4” & 6” include metal separators for added stability
- MR-11 Series (1”, 2”, 4”, 6”)**
  - MERV 11 performance
  - Excellent balance of filtration and airflow
  - 4” & 6” models include metal separators
  - Also available in **Geothermal** version (2” heavy-duty die-cut frame)
- MR-13 Series (1”, 2”, 4”)**
  - MERV 13 performance – ideal for enhanced IAQ

- Reliable service life & low pressure drop
- Cost-effective upgrade from standard filters
- Supports **LEED compliance** in commercial applications
- HVXM & MR-11XM Extreme-Duty Series**
  - MERV 10 & 11 performance
  - Reinforced with extra-heavy galvanized metal
  - Approximately 75% more structural support for demanding environments
  - Excellent breach strength for harsh or high-volume systems
- Carbotron Series (1”, 2”, 4”)**
  - Activated carbon synthetic media
  - Effective odor and VOC reduction
  - Dual-function: odor removal + particulate capture
  - MERV 8 Performance
- 1000 Series (2”, 4”)**
  - MERV 8 performance
  - Heavy-duty aluminized framework
  - Microblend fiberglass media
  - Suitable for high-temperature environments (up to 300°F)
